Determine Your Ring Size

Method 1: Measure Using a Ring Size Tool

What you will need: **Scissors**

How to Use the Ring Size Tool
1. Print with Accurate Scaling
   Make sure to follow the printing guide "Print Scale Check" to print at 100% scale—no resizing.
2. Step 1: Cut and Prepare
   Cut out the strip and make a small slit at the dashed line (don't cut all the way).
3. Step 2: Wrap It Around
   Wrap around your finger with numbers facing out. Insert the pointed end through the slit.
4. Step 3: Find Your Fit
   Pull snug and check the number at the green line—this is your ring size.
- If it falls between sizes, go with the half size.

Method 2: Measure Using a Ring You Have

What you will need: **Ring**

1. Grab a ring that fits well. *The measurements shown are of the **diameter** of the ring.*
2. Place your ring over the circles — the right size is where the **inside edge of your ring matches the inside edge of a circle.**
1. Can't find an exact match? Go with the larger size if you're between two.

Helpful Tips:
- **Band width matters:** Wider bands tend to feel snugger, so consider going half a size up if you're choosing a thick design.

3 14.1 mm	3.5 14.5 mm	4 14.9 mm	4.5 15.3 mm	5 15.7 mm	5.5 16.1 mm	6 16.5 mm	6.5 16.9 mm
7 17.3 mm	7.5 17.7 mm	8 18.1 mm	8.5 18.5 mm	9 19.0 mm	9.5 19.4 mm	10 19.8 mm	10.5 20.2 mm
11 20.6 mm	11.5 21.0 mm	12 21.4 mm	12.5 21.8 mm	13 22.2 mm	13.5 22.6 mm		
14 23.8 mm	14.5 24 mm	15 24.2 mm	15.5 24.6 mm	16 25 mm
